

# Table of Contents

<b>Introduction and Definitions .....</b>	<b>1</b>
Objective of this Textbook .....	1
Textbook Outline .....	2
Textbook Conventions .....	3
Exercise Files .....	4
Introduction to Pro/INTRALINK .....	5
Definitions .....	6
Capabilities of Pro/INTRALINK .....	8
Pro/INTRALINK and Pro/ENGINEER Object Reference .....	9
Components of Pro/INTRALINK .....	10
The Intralink Menu .....	10
Intralink Objects .....	11
Login / Logout .....	12
The Commonsense .....	13
The Workspace .....	14
Linked Session of Pro/ENGINEER .....	14
Locating Objects .....	15
Preferences and Defaults .....	15
Administration Tasks .....	15
Purge .....	15
RTP Forms .....	15
Intralink Object Attributes .....	16
<b>Browser Windows .....</b>	<b>19</b>
Introduction .....	19
Selecting and Unselecting Objects .....	20
Object Type Icons .....	21
Browser Column Options .....	22
Configuring the Browser's Column Display .....	23
Browser Sort Order .....	24
Browser Display Filters .....	25
Saving Table Configurations .....	26
Recommended Column Displays .....	27
Browser Popup Menus .....	28
<b>Object Info and Workspace Reports .....</b>	<b>29</b>
Introduction .....	29
Object Information .....	29
Object Preview Panel .....	30
Bill of Materials Report .....	31
BOM Graph .....	32
Relationship Report and Graph .....	33
Where Used Report .....	34
Family Table Reports .....	34
Exercise 1 – Introduction to Pro/INTRALINK .....	35

<b>The Workspace .....</b>	<b>45</b>
Introduction.....	45
The Workspace Browser.....	46
Workspace Browser Icons .....	47
Creating a New Workspace .....	48
Creating New Objects in the Workspace .....	49
Importing Data into the Workspace.....	50
Importing Data into the Workspace (continued).....	51
Importing Data into the Workspace (continued).....	52
Copying Workspace Objects.....	53
Copying Workspace Objects (continued).....	54
Workspace Commands.....	55
Workspace Status .....	56
Working on Restricted Objects.....	57
Linking Pro/ENGINEER to your Workspace .....	58
Pro/ENGINEER File Menu .....	59
Other Changes to Pro/ENGINEER .....	60
Facts About Linked Sessions of Pro/ENGINEER .....	61
Linking to Another Workspace .....	62
<b>The Check In Command.....</b>	<b>63</b>
Introduction.....	63
Check In from the Workspace.....	64
Set Object Attributes .....	64
Set Object Attributes (continued) .....	65
Dependency Configuration.....	66
Set the Folder Attribute .....	67
The 'To Hold' Attribute .....	68
Check In Forms.....	69
Check In Forms (continued).....	70
Check In Options.....	71
Check In Conflicts .....	72
Check In Directly from Pro/ENGINEER .....	74
Using Baselines at Check In .....	75
Should I Check In My Design?.....	75
Exercise 2 – The Workspace and Check In.....	76
<b>The Commonsense .....</b>	<b>89</b>
Introduction.....	89
The Commonsense Folder Structure.....	90
The Commonsense Browser Window.....	91
The Commonsense Browser Window (continued) .....	92
The Commonsense Table Configuration and Attributes.....	93
Commonsense Icons .....	94
Commonsense Commands.....	95
Commonsense Bookmarks.....	96
Using Bookmarks .....	97
Where Bookmarks are Stored.....	98
The Briefcase .....	99
Commonsense Object Status .....	100
Commonsense Object Status (continued) .....	101
Commonsense Reports .....	102

<b>The Checkout Command .....</b>	<b>103</b>
Introduction.....	103
The Checkout Dialog Box .....	104
Checkout Conflicts .....	105
Exercise 3 – The Commonsplace and Checkout .....	106
<b>Locate Objects.....</b>	<b>116</b>
Introduction.....	116
The Locate Browser Window .....	117
The Locate Browser Window (continued).....	118
Searching for Objects.....	119
Saving Searches .....	121
Using a Saved Search to find Objects .....	122
Redefining a Saved Search .....	122
Deleting a Saved Search .....	122
Using Search Results.....	123
Exercise 4 – Locate Objects .....	124
<b>Baselines.....</b>	<b>129</b>
Introduction.....	129
Creating a Baseline.....	130
Creating a Baseline (continued).....	131
Creating a Baseline (continued).....	132
Modifying Baseline Attributes.....	133
Modifying Baseline Content .....	134
Comparing Baselines .....	135
Deleting a Baseline .....	136
Exercise 5 – Baselines.....	137
<b>Promote and Demote .....</b>	<b>141</b>
Introduction.....	141
Release Levels and Schemes .....	141
Facts about the Promote and Demote Commands .....	142
Promoting Objects.....	142
Promoting Objects (continued).....	143
Promoting Objects (continued).....	144
Demoting Objects.....	144
Request to Promote Report .....	145
<b>Release Procedures .....</b>	<b>146</b>
Introduction.....	146
The Release Procedure .....	146
Starting the Release Procedure .....	147
Pending RTP Forms.....	148
Voting on a Request to Promote.....	149
Transfer a request to Promote .....	150
Override or Abort a Request to Promote .....	151
Bypass a Release Procedure.....	152
Exercise 6 – Promote and Demote .....	153

<b>User Preferences .....</b>	<b>159</b>
Introduction.....	159
Check In Preferences.....	160
Check In Preferences (continued) .....	161
Checkout Preferences.....	162
Checkout Preferences (continued) .....	163
Promote/Demote Preferences.....	164
Configuration Preferences .....	165
Application Behavior Preferences .....	166
Replicas Preferences.....	168
Parts Link Preferences.....	169
Sharing Your Preferences.....	170
Setting System-Wide Preferences .....	171
Exercise 7 – User Preferences .....	172
<b>Workspace Frames.....</b>	<b>179</b>
Introduction.....	179
Working with Frames .....	180
Frame Report .....	181
Purging Frames.....	181
Exercise 8 – Workspace Frames .....	182
<b>Incomplete Objects .....</b>	<b>190</b>
Introduction.....	190
Investigating Incomplete Objects .....	191
Updating Incomplete Objects .....	192
Exercise 9 – Incomplete Objects .....	193
<b>Common Objects.....</b>	<b>197</b>
Introduction.....	197
Library Items .....	197
Drawing Formats.....	198
Exercise 10 – Common Objects .....	199
<b>Family Table Objects.....</b>	<b>210</b>
Introduction.....	210
Displaying Family Tables in Intralink.....	211
Using the Full Tree Option .....	212
Family Table Object Information .....	213
Verifying Instances .....	214
Renaming Instances .....	215
Deleting Instances.....	216
Updating the Workspace and Pro/ENGINEER .....	217
Exercise 11 – Family Table Objects .....	218
<b>External Simplified Reps .....</b>	<b>226</b>
Introduction.....	226
Checkout External Simplified Reps.....	227
Importing and Exporting Simplified Reps .....	229
Exercise 12 – External Simplified Reps .....	230

<b>Object Branching</b> .....	<b>235</b>
Introduction.....	235
Creating a Branch .....	236
Creating a Branch (continued) .....	237
Creating a Branch (continued) .....	238
Working with Branched Objects.....	239
Working with Branched Objects (continued).....	240
<b>Concurrent Engineering</b> .....	<b>241</b>
Introduction.....	241
Object Status.....	242
Changing Object Status .....	243
Compare Status .....	244
Object Update .....	245
Object Update (continued) .....	246
Update Pro/ENGINEER .....	247
Synchronize the Workspace .....	247
Pro/ENGINEER Conflicts .....	248
Object Integrate.....	249
Object Integrate (continued).....	250
Check In Conflicts .....	250
Exercise 13 – Concurrent Engineering .....	251
<b>Rename, Delete, Export, Purge</b> .....	<b>259</b>
Rename Objects .....	259
Delete Objects.....	260
Export Objects.....	261
Export Objects (continued).....	262
Purge Objects .....	263
Defining the Purge Criteria.....	264
Defining the Purge Criteria (continued).....	265
Saving Purge Criteria .....	266
Verify the Purge Criteria.....	267
Purge Conflicts.....	268
Execute the Purge.....	268
Exercise 14 – Exporting Objects to Disk.....	269
<b>Workspace Management</b> .....	<b>275</b>
Introduction.....	275
Your Workspaces.....	275
The .proi Folder.....	276
<b>Recommended Practices</b> .....	<b>277</b>
<b>About the Author</b> .....	<b>279</b>
<b>Index</b> .....	<b>280</b>
