Topics Not Covered	2
What's New in Pro/ENGINEER Wildfire 3.0 and 4.0	2
Tutorials.....	3
User Interface Changes	4
Introduction.....	4
Common Folders.....	6
Tutorial – Common Folders.....	7
File Dialog Boxes	9
File Dialog Boxes (continued).....	10
Tutorial – File Dialog Boxes	11
Save Object Dialog Box	12
Tutorial – Save Objects Dialog Box	12
The File Menu	13
The Quick Print Command.....	14
The Quick Print Command (continued).....	15
The Quick Print Command (continued).....	16
Notes About the Quick Print Command	16
Tutorial – Quick Print.....	17
AutoCAD Import and Export.....	20
PDF Output	21
Tutorial – PDF Output	22
Digital Rights Management.....	23
The View Menu	24
Tutorial – Using the View Menu	25
Tutorial – Model Tree and Layer Tree	26
The Insert Menu	27
The Insert Menu (continued).....	28
The Analysis Menu.....	29
The Analysis Menu (continued)	30
Analysis Dialog Boxes.....	31
Analysis Dialog Boxes (continued)	32
Cross-Section Analysis	33
Tutorial – Using the Analysis, Measure Commands.....	34
Tutorial – Using the Analysis, Model Commands	35
The Info Menu	37
The Tools Menu	38
The Image Editor.....	39
Image Editor Controls	40
Tutorial – Using the Image Editor	41
The Customize Screen Command	42
The Help Menu.....	43

Sketcher Enhancements	44
Introduction.....	44
Tutorial – Auto Diameter and Undo Spin	46
Sketcher Colors.....	47
Tutorial – Sketcher Colors.....	48
Sketcher Diagnostic Tools	49
Tutorial – Sketcher Diagnostic Tools	50
Sketcher Line Style	52
Tutorial – Sketcher Line Style	53
Sketch Setup.....	54
Tutorial – Sketch Setup.....	55
Sketch References	56
Tutorial – Sketch References.....	57
Sketcher Palette.....	58
Sketcher Palette (continued).....	59
Tutorial – Sketcher Palette.....	60
Tutorial – Sketcher Palette.....	61
Tutorial – Sketcher Palette.....	62
Sketched Text	63
Tutorial – Sketched Text	64
Locked Dimensions.....	66
Tutorial – Locked Dimensions.....	66
Cut, Copy, Paste	67
Tutorial – Cut, Copy, Paste	67
General Modeling Enhancements	68
Introduction.....	68
Advanced Selection	70
Tutorial – Advanced Edge Selection.....	71
Tutorial – Advanced Surface Selection.....	74
Auto Round feature	76
Tutorial – Auto Round Feature.....	77
Clipped Views	78
Tutorial – Clipped Views	78
Copy, Paste.....	79
Tutorial – Copy, Paste.....	79
Dependent Copies	80
Dependent Copies with Varied Items.....	81
Copied Feature Commands.....	82
Tutorial – Dependent Copies	83
Cosmetic Threads	85
Tutorial – Cosmetic Threads.....	85
Datums ‘On the Fly’.....	86
Tutorial – Datums ‘On the Fly’	87
Datum Reference Feature.....	89
Delete Group Member.....	90
Tutorial – Delete Group Member	90
Dimension Expressions.....	91
Tutorial – Dimension Expressions	91
Draft Feature	92
Tutorial – Draft Feature	92
Hole Feature	93

Hole Feature (continued)	94
Hole Feature (continued)	95
Hole Feature (continued)	96
Tutorial – Hole Feature	96
Mapkeys	97
Tutorial – Mapkeys	97
Materials	98
Materials (continued).....	99
Materials (continued).....	100
Materials (continued).....	103
Tutorial – Materials.....	104
Merge Feature.....	106
Tutorial – Merge Feature.....	106
Mirror Part	107
Tutorial – Mirror Part	108
Mirror Assembly	109
Mirror Assembly (continued)	110
One-by-One Select	111
Tutorial – One-by-One Select	111
Parameters.....	112
Parameters (continued).....	113
Tutorial – Parameters.....	114
Tutorial – Parameters.....	115
Pattern Enhancements.....	116
Tutorial – Pattern the Pattern	117
Tutorial – Mirror the Pattern	118
Tutorial – Reference Pattern	119
Tutorial – Curve Pattern	120
Tutorial – Fill Pattern	121
Tutorial – Fill Pattern	122
Reference Handles	123
Tutorial – Reference Handles	123
Reference Viewer.....	124
Tutorial – Reference Viewer.....	125
Remove Feature	126
Tutorial – Remove Feature	126
Reorder in Model Tree	128
Tutorial – Reorder in Model Tree	128
Shell Feature	129
Tutorial – Shell Feature.....	130
Shell Feature (continued).....	131
Tutorial – Shell Feature	131
Swept Blend Feature.....	133
Swept Blend Feature (continued)	134
Tutorial – Swept Blend Feature	135
User Defined Features	137
User-Defined Features (continued).....	138
Tutorial – User Defined Features	139
User-Defined Features (continued).....	141
Tutorial – User-Defined Features	142
Warp Feature	143
Tutorial – Warp Feature	144

Annotation Features.....	145
Introduction.....	145
Annotation Commands.....	147
Annotation Display	148
Tutorial – Annotation Display	148
Annotation Orientation	149
Annotation Orientation (continued)	150
Tutorial – Annotation Orientation	151
Annotation Feature Dialog Box	153
Tutorial – Annotation Feature Dialog Box	154
Annotation Propagate Feature	155
Annotation Types	155
Annotation Style	156
Tutorial – Annotation Style	157
Driving Dimensions	158
Tutorial – Driving Dimensions	159
Ordinate Dimensions.....	160
Tutorial – Ordinate Dimensions.....	160
Reference Description.....	162
Replace References.....	163
Set Datum Tag.....	164
Surface Finish Symbols	165
Tutorial – More Annotations.....	166
Shared Data Commands	168
Introduction.....	168
Publish Geometry.....	169
Tutorial – Publish Geometry.....	170
Copy Geometry	171
Copy Geometry (continued).....	172
Tutorial – Copy Geometry	172
Merge, Cutout, and Inheritance	173
Merge, Cutout, and Inheritance (continued)	174
Tutorial – Merge, Cutout, and Inheritance	174
Shrinkwrap	177
Tutorial – Shrinkwrap	178
Assembly Enhancements.....	180
Introduction.....	180
Active Component.....	182
Tutorial – Active Component.....	182
Assembly Model Tree	183
Assembly Model Tree (continued)	184
Tutorial - Assembly Model Tree	185
Collision Detection	187
Tutorial – Collision Detection	188
Combined States.....	190
Component Layers.....	191
Tutorial – Component Layers.....	191
Component Placement Dashboard Tool.....	192
Component Placement Dashboard Tool (continued).....	193
Component Placement Dashboard Tool (continued).....	194

Tutorial – Component Placement Dashboard Tool.....	195
Component Interfaces.....	199
Component Interfaces (continued).....	200
Component Interfaces (continued).....	201
Component Interfaces (continued).....	202
Component Interfaces (continued).....	203
Tutorial – Component Interfaces.....	204
Copy, Paste.....	210
Tutorial – Copy, Paste.....	211
Envelope Parts.....	212
Envelope Parts (continued).....	213
Tutorial – Envelope Parts.....	214
Flip Axis Constraint.....	217
Tutorial – Flip Axis Constraint.....	217
Mechanism Drag.....	218
Mechanism Drag (continued).....	219
Tutorial – Mechanism Drag.....	220
Reference Viewer.....	222
Tutorial – Reference Viewer.....	225
Replace Components.....	226
Replace Components (continued).....	227
Tutorial – Replace Components.....	228
Replace Unrelated Components.....	229
Tutorial – Replace Unrelated Component.....	230
Simplified Reps.....	231
Family Tables.....	233
Shrinkwrap Features.....	234
Tutorial – Shrinkwrap Features.....	234
Transparent Display.....	235
Tutorial – Transparent Display.....	235
Zones.....	236
Tutorial – Zones.....	237
Undo, Redo.....	238
Tutorial – Undo, Redo.....	238
Detail Drawing Enhancements.....	239
Introduction.....	239
Active Layer.....	242
Tutorial – Active Layer.....	243
Annotation Display.....	244
Tutorial – Annotation Display.....	244
Basic Dimensions.....	245
Tutorial – Basic Dimensions.....	245
Chamfer Dimensions.....	246
Tutorial – Chamfer Dimensions.....	246
Clipped Dimensions.....	247
Tutorial – Clipped Dimensions.....	247
Cross Hatching.....	248
Tutorial – Cross Hatching.....	249
Move Dimensions and Flip Arrows.....	250
Tutorial – Move Dimensions and Flip Arrows.....	250
Decimal Places.....	251

Tutorial – Decimal Places	251
Dimension Text Orientation.....	252
Tutorial – Dimension Text Orientation	253
Dimension Text Orientation (continued)	254
Tutorial – Dimension Text Orientation	254
Draft Datums	255
Tutorial – Draft Datums	255
Draft Entities.....	256
Drawing Templates	257
Geometric Tolerances.....	258
Tutorial – Geometric Tolerances.....	261
Hole Table Label Position	262
Tutorial – Hole Table Label Position	262
Model Edge Display	263
Tutorial – Model Edge Display	263
Move Special.....	264
Tutorial – Move Special.....	264
Note Placement.....	265
Tutorial – Note Placement.....	265
Ordinate Dimensions.....	266
Tutorial – Ordinate Dimensions.....	266
Part Simplified Reps.....	267
Tutorial – Part Simplified Reps.....	268
Section Views.....	269
Tutorial – Section Views.....	270
Shaded Views	271
Tutorial – Shaded Views	271
Silhouette Selection	272
Tutorial – Silhouette Selection	272
Superscripted Tolerance	273
Tutorial – Superscripted Tolerance	273
Symbol Placement	274
Tutorial – Symbol Placement	274
Symbol Placement (continued).....	275
Tutorial – Symbol Placement	275
Tables.....	276
Tutorial – Tables	276
View Label Placement.....	277
Tutorial – View Label Placement	277
View States	278
Tutorial – View States	279
Drawing Setup File.....	280
Sheetmetal Enhancements.....	281
Introduction.....	281
Bend Notes.....	283
Unattached Extruded Walls.....	284
Tutorial – Unattached Extruded Walls	285
Unattached Flat Walls	286
Tutorial – Unattached Flat Walls	287
Flange Walls	288
Flange Walls (continued)	289

Flange Walls (continued)	290
Tutorial – Flange Walls	291
Sheetmetal Cuts	293
Tutorial – Sheetmetal Cuts	294
Form Features	296
Tutorial – Form Features	297
Sheetmetal Reports	299
Wall Offset Location	300
Tutorial – Wall Offset Location	301
Wall Section Reuse	302
Mechanism Enhancements	303
Introduction	303
Joint Axis Limits	305
Tutorial – Joint Axis Limits	306
Slot Connections	310
Tutorial – Slot Connections	311
Flexible Components	313
Tutorial – Flexible Components	313
Mechanism Skeletons	314
Motion Skeletons	315
Design Skeletons	316
Body Skeletons	317
Body Skeletons (continued)	318
Tutorial – Mechanism Skeletons	319
Piping Enhancements	326
Introduction	326
Thick Pipes	327
Insulation Display	328
ISDX Enhancements	329
Introduction	329
The Styling Menu and Toolbar	331
Circle and Arc	332
Circle and Arc (continued)	333
Automatic Curve Connections	333
COS by Intersect	334
Curve from Datum	335
Draft Tangent Connections	336
Extend Drop Curves	337
Show Original Curve	337
Move and Copy	338
Offset Curves	339
Style Tree	340
Surface Edit Command	341

Photorender Enhancements 342
Introduction..... 342
Lights..... 343
Tutorial – Lights..... 344
Render Scenes 345
Tutorial – Render Scenes 346
Room/Model Alignment..... 348
Tutorial – Room/Model Alignment..... 349
Texture Placement..... 351
Tutorial – Texture Placement..... 352

Configuration File Changes..... 354
Obsolete Configuration Options 354
Changed Configuration Options..... 355
New Configuration Options 355
